

Amendments to the Abstract:

~~SYSTEMS, METHODS, AND COMPUTER-READABLE MEDIA FOR ENROLLING
CONFEREES FOR EXPEDITED ACCESS TO CONFERENCING SERVICES~~

ABSTRACT OF THE DISCLOSURE

Systems, methods, and computer-readable media of enrolling conferees to receive conferencing services. Methods to achieve the foregoing can comprise: receiving a request from the conference call host to enroll in conferencing services; receiving data representing a unique identifier relating to the conference call host; providing data representing access information to the enrolled conference call host, wherein the given conference call host can request access to a given conference call using the access information; and configuring a component of a system related to supporting the conference call to connect the conference call host directly to the conference call in response to recognition of the access information ~~or~~and the unique identifier in a communication from the conference call host.
